

Getting Started: Doctorate & Postdocs @OVGU

hosted by OVGU Graduate Academy

We would like to give scientists who are new to OVGU a little start-up help and regularly offer an open information and discussion round on ZOOM. After an overview of the structure and basic tasks, and a little insight into the not so obvious responsibilities, there will be plenty of time to answer individual questions. We cordially invite you to get to know OVGU in general and the Graduate Academy's services in particular, so that your start will be as smooth as possible. We speak English and German.
