STIMULATE Colloquium

SEDIVENTION

FREEZING THE HUNGER FEELING

DR. MED. UTE NOLLERT

Obesity currently affects 1.2 bn people and leads to 3.7 mio deaths annually by 200 secondary diseases. Sedivention develops a medical device for a new, interventional therapy of obesity. The device offers a standalone therapy, a less costly and minimally invasive alternative to drugs and bariatric surgery.

We look forward to seeing many of you in person. If you are unable to attend in person, please find the Zoom link below
